## MENTORS' IDENTIFICATION AND TRAININGS

For the implementation of the workshops throughout Cyprus, a group of 20 mentors was formed. Trainers as well as educators were selected through an open call. The response to the invitation was immediate and large in numbers. Potential participants were informed about the project and their potential involvement.

**TRAINING MANUALS AND HANDBOOKS**  
The training manuals are ready and translated in three languages: English, Greek and Turkish. Educators as well as students will be able to use them as a guideline combined with their creativity! Soon they will be available in the project's site for downloading.

**PROJECT'S WEBSITE AND LMS**  
Code4Rural's website has been launched. Educators will be able to visit the site and create their account, not only to find information, but also to book their participation in various activities. A Learning Management System will be soon connected to the site to serve as a Training Platform.

## EDUCATIONAL SESSIONS

Coding activities started with pilots in Avgorou and Palodia primary schools, and at S.Philippides institute in Akaki. Educational institutions in rural areas are now able to take part in our funded activities. At the end of the project, all participants will receive a souvenir and each institution a robotics kit as a gift!

## INFORMATIVE SESSIONS

One-on-one or group meetings with stakeholders, local communities, schools, public authorities etc. have started, in order to be informed on how to take part, and also to promote our activities and our upcoming events.
